Gentlemen:

The members of the Washington, Georgia Chapter of OLLI @ UGA want to express our appreciation for your gracious hospitality on March 16, 2012. Each of our members who attended the event at your facility enjoyed it greatly.

We were warmly greeted and enjoyed meeting members of your Astronomy Club. The delicious meal was indeed a special treat, and dining under your pavilion was the perfect setting for a warm early Spring evening.

Our visits to your observatories were very informative and added an interesting follow-up of our four weeks of study of the *Night Sky*. Seeing the features of the buildings; looking thru the telescopes; and identifying different stars and planets was the perfect way to complete our astronomy course.

Thank you to Jane Kuehn and her husband, John, for their presentation at our fourth session and for inviting us to your site. Again, the evening was delightful.

Sincerely,

Washington Chapter of OLLI

Ruth D. Rogers, President
